CURRICULUM

Figure drawing classes are a highlight of the art program at P. C. H. S. Members of each class take turns modeling as the other art students sketch their "gesture poses." They study all forms in nature to develop an awareness of the principles and elements of design.

They explore and develop skills found in every student through the techniques of all possible media: pencils, crayon, charcoal, water color, pastel, and finally oil and acrylic painting. The unit of additive sculpture with wood scraps probably appealed to the male students most because it is a unit on three dimensional construction.

In art appreciation they study compositions of the old masters and trace the development of art styles through various periods. They link American art and literature to our present day, for an understanding of our regional heritage.

Self expression is encouraged so that emotional release may awaken a love of the beauties and wonders of the natural world.

Library

The Pocahontas County High School Library provides a quiet place for studying, looking up material, or just a pleasant place to relax.

Music Listening

In music listening the students study vast kinds of music and their composers. They learn why music is written and how it reflects the time period in which it was written. The modern compositions of JESUS CHRIST SUPERSTAR and WOODSTOCK, plus Broadway musicals such as HAIR and WEST SIDE STORY were studied this year. The class also deals with country, rock, and classical music.

Biology

Biology, the study of plant and animal life, is a required course for sophomores. Mrs. Sharpes leads students in the investigations of structure and physiology of animals, plants and protists, genetics, evolution, and history of life. Students do experiments with dissections of animals, plants, and individual projects.

Chemistry

Chemistry students, under the supervision of Mr. Harold Crust, learn the structure and composition of materials and changes that occur with them. They learn through experimentation and sometimes--their mistakes.

Physics and physical science are also offered by the department.

Physical Education

In physical education the girls play many different games which include volleyball, basketball, soccer, badminton, hockey, and archery. And would you believe they learn karate to learn to defend themselves!

erball is just one of several activities emphasized in physical education for boys. Others include crab soccer, ping-pong, square dancing, volleyball, softball, track-olympics, and tumbling. New activities this year included judo, wrestling, physical fitness (weight machine), obstacle course, and knee football. In order to raise money to pay for our new ensolite mat, the P. E. classes sponsored "Activity Nites" at the gym, as well as a Donkey Basketball game.

Math

The math department offers General Math, Business Math, Algebra I, Algebra II, Geometry, and Algebra III/Trigonometry. The purpose for teaching mathematics in high school is to develop logical reasoning and abstract thought processes.
